Subject: FY 2023-2024 Festivals and Special Events Grant Program (FEST) Panel Recommendations

RECOMMENDATION

It is recommended that the Council approve the funding of sixteen (16) grants from the Festivals and Special Events Grant Program.

BACKGROUND

The Festivals and Special Events Grant Program Panel, chaired by Councilor Mireille Chancey-Gonzalez, convened on May 5, 2023 to review 16 applications requesting a total of \$1,670,000. The Panel recommended the Council approve the funding of fifteen (15) grants evaluated through the Festivals and Special Events Grant Program interim cycle process. The Panel also recommended that the Council approve one (1) application which upon undergoing a comprehensive review, determined it qualified for funding consideration should additional funding above and beyond the comprehensive fiscal year program allocation become available.

Applications were determined to be eligible based on the program's guidelines and criteria and were designated by the panel as qualified for funding consideration. In accordance with the program's guidelines, grant awards for any newly designated Festivals and Special Events organizations are made only if additional funding becomes available for interim fiscal years through an increase of funds available for the program.

The Festivals and Special Events Grants Program is designed to support festivals and special events taking place in FY 2023-2024 which are coordinated and presented by legally incorporated 501(c)(3) not-for-profit Florida corporations and/or units of local government. The program operates with two categorical designations:

- 1) **Cultural Organizations** - those organizations whose missions predominantly emphasize close examination of artistic disciplines and present activities that occur primarily indoors; and
- 2) **Community Organizations** - those organizations whose missions predominantly emphasize the celebration of heritages, arts and entertainment events and present activities that occur primarily outdoors.

Within each of these two categories, the applicant pool is divided into three levels for evaluation and funding consideration:

Division A: organizations with annual project budgets of more than \$1,000,000

Division B: organizations with annual project budgets between \$400,000-\$999,000

Division C: organizations with annual project budgets between \$150,000-\$399,999

Additionally, organizations must demonstrate an uninterrupted track record of producing the activity; a Board of Trustees/Directors; a professional staff leader/team; a reputation for programmatic excellence and credibility on a local, regional, national or international level; effective, broad reaching marketing strategies; and matching funds from the private sector.

The Festivals and Special Events Grants Program operates on a three-year review cycle. In the first year of the cycle (FY 2021-2022), a comprehensive application submission was required, and a full panel review was conducted. In the subsequent two years of the cycle (FY 2022-2023 and FY 2023-2024), a more streamlined application form and review process will be employed. Grants awarded in the FY 2021-2022 cycle of the program defined the grant award level for the next two years of the cycle, (including FY 2022-2023 and FY 2023-2024) subject to annual adjustments based on organizational budget information, and contingent upon the availability of funding and upon a satisfactory review and recommendation of the interim applications by the Department of Cultural Affairs, the Festivals and Special Events interim year review panel and the Cultural Affairs Council. Grantees are required to satisfy all program criteria, as well as prior year's reporting requirements to be eligible for renewed consideration for funding.

Funding for Festivals and Special Events Grants Program is derived from departmental proprietary revenues. All funding recommendations are contingent upon approval of the Department of Cultural Affairs' FY 2023-2024 budget by the Miami-Dade County Board of County Commissioners and Mayor and are subject to availability of funds.

Attached is a list describing the projects recommended for funding.
